

SCS TODAY: July 22, 2020

[A late-day M-W-F update from the SCS Dean's Office]

FOR FACULTY

— SCS Partnerships launched via email a new Faculty Research Identification spreadsheet to centrally collect and maintain information about your areas of research, a description of demonstrations your lab may be willing to provide for visitors and other key information for SCS Partnerships to know about you, your research and your lab. The keywords to use to describe your research are the same as those used by the ACM; you also have the option to add content in the spreadsheet to ensure flexibility in describing your research to make sure we don't miss any new and exciting areas of research that you are discovering! Please take some time to participate in this new SCS Partnerships initiative.

SPECIAL THANKS

— With summer flying by, I want to take a moment to officially thank all [SCS Program Coordinators](#) who've been putting forth amazing – in many cases Herculean – efforts, rising to many new challenges as we plan the fall schedule and helping our students navigate many changes. I sincerely appreciate all you do and encourage accolades for you from others in SCS. You'll find all of our Program Coordinators via the link above.

NEXT WEEK

— July 28-30: free and open to the public, the [University of Pittsburgh's 2020 Diversity Forum, Advancing Social Justice: A Call to Action](#), is a three-day virtual conference that will engage participants in transformative community learning, conversations and actions to advance an inclusive, equitable and just society. [Register here](#).

Until Friday,
----- **Martial**
